1.1 Purpose. This chapter prescribes the policy and procedure for the handling of invoices and trust fund payments in the Trust Asset and Accounting Management System (TAAMS) within the TAAMS Invoicing and Distribution module (TID), and prescribes the procedure for implementing the invoice management requirements. This policy is necessary to ensure that the monitoring and clearing of invoices and payments from TID are processed accurately and timely.

1.2 Scope. This policy is applicable to Indian trust programs and offices, including the Bureau of Indian Affairs (BIA) and the Office of the Special Trustee for American Indians (OST), which administer trust contracts, receive and accept payments required by the contracts at the centralized commercial lockbox, and distribute money received to the appropriate TFAS (Trust Fund Accounting System) accounts.

It is a BIA lease compliance responsibility to identify invoices that should be voided or marked paid. The primary points of contact (POC) for TID invoice management are the BIA Lockbox Liaisons or an alternate selected for each region in case a Lockbox Liaison is unavailable. Requests to mark a TID invoice paid will only be accepted by BIA Lockbox Liaisons or his/her designated alternate.

1.3 Policy. It is BIA policy to match invoices to trust fund payments made by check within two (2) business days of deposit at the centralized commercial lockbox or within two (2) business days of notification of receipt of electronic payments including Intergovernmental Payment and Collections (IPACs). There are three (3) exceptions when funds may not be distributed to the beneficiaries and may instead be posted to a Special Deposit Account (SDA) in the Trust Funds Accounting System. The three exceptions are: Survey, Litigation/Appeal, and Policy/Solicitor Opinion. Supporting documentation must be submitted in order to post to an SDA for one of these three exceptions.

In order to ensure BIA meets the five (5) day requirement set forth in 25 CFR 162.618, it is also the policy of BIA to ensure that appropriate corrective and timely steps are taken to initiate lease compliance action per the terms of the contract within two (2) business days of an invoice becoming past due.

BIA has primary responsibility to ensure TID invoices are valid and that trust fund payments are timely matched with invoices for distribution to beneficiaries. Both BIA and OST shall comply with the procedures in section **1.5 Process**. Further, BIA Lockbox Liaisons shall ensure that issues preventing the timely processing of trust payments are promptly brought to the attention of the appropriate BIA Deputy Regional Director for Trust. BIA Deputy Regional Directors for Trust and the OST Regional Trust Administrators will coordinate for monthly review of invoices and payments outstanding reports, and will jointly

1.5 Process

A. Matching Invoices and Payments (New, Outstanding, Suspended Items)

I. Process Overview - New Checks

1. Check is received and scanned at Lockbox
2. Images are sent to TAAMS beginning at 2:00 p.m. Central Standard Time (CST) each day and the upload process is to be completed by 6:00 p.m. CST that day
3. TAAMS searches for check information & images every 15 minutes
4. When data is found it is loaded into TAAMS
5. Agency check matching personnel should be running the “New” check selection process frequently between 2:00 p.m. & 6:00 p.m. CST each day
6. When check information is found, Agency personnel will review the information in the Check Matching icon
7. Checks which Auto-Match will be submitted with no action required by BIA check matching personnel. Auto-Matches can be cleared by BIA check matching personnel as needed prior to 6:00 p.m. CST that day
8. For checks that do not Auto-Match, BIA check matching personnel must review the various records (check & invoice images, encoded contract information or hard-copy of contract) to determine the proper resolution of the record
9. Office of Special Trustee-Branch of Income Collection (OST-BIC) will submit all manually matched checks for posting each night beginning at 6:00 P.M. CST
10. BIA program staff are responsible for the review of payment information prior to and after posting to assure proper distribution

- c. Attach supporting documentation
- d. Obtain Authorizing Signature
- e. Submit to your local OST Office
- f. Add a comment on the “Check Action” screen providing the reason the check requires manual payment.

Manual payments are acceptable only when the check is submitted for:

- a non land asset transaction. E.g. Social Security or Veteran Administration.
- A land sale
- Compacted contracted tribes where their leases are not on TAAMS
- A Direct Payee whose funds have been returned. These funds will be accepted only when the direct payee address has become unknown, or they are deceased. Work tickets to modify the account to reflect the new status must be submitted along with the manual payment. The payment terms must also be modified to ensure the next invoice reflects the proper agency pay amount.
- Crop shares
- Those tracts that require a redirection of income. Invoice numbers must be provided in order to mark the invoice paid.

See appendix _A_ for the OST requirements on submitting a BSD file.

B. Voiding Invalid Invoices

Process Overview – Voiding Invalid Invoices

1. An incorrect contract payment term has caused an invalid invoice to be generated
2. Agency BIA staff identifies the error and invoice number
3. Agency BIA staff either retrieves contract and voids the incorrect payment term or provides documentation to Regional Lockbox Liaison to determine corrective action
4. Agency BIA staff or Lockbox Liaison must determine if a new, correct payment term is required for the contract
 - a. If required, refer to TAAMS training manual for creating payment terms

C. Working Actual Past Due or Deficient Amounts Due

Process Overview – Working Actual Past Due or Deficient Amounts Due

Step 1: Within five (5) business days of an outstanding invoice becoming past due, input penalty per the contract on the encumbrance record “other payment terms” screen in TAAMS. Penalties will only be assessed for agency pay recipients. (For direct pay recipients, see 25 CFR 162.248 (a))

- Indicate “Distribute to Owners – Yes” so that the information will **upload to TFAS and TFR will generate an invoice.** See the TAAMS User’s Guide for further instruction.
- When payment is received, the funds will automatically match and distribute to the appropriate TFAS accounts.

Step 2: Within five (5) business days of an outstanding invoice becoming past due, mail a 10-Day Show Cause Notice to the past due contractor.

- Include the penalty assessed from **Step 1** in the amount due on the notice.

D. Working Zero Check Records

With the release of TAAMS v2.6.5, an option is now available by which Zero Check Records can now be manually “Marked Processed”.

Zero Check Records are a non-monetary item that has been submitted to Lockbox.

The Zero Check Records show up in the Check Matching screen as:

Check Amount = \$0.00

Direct Pay Amount = \$0.00 or \$x.xx

Unmatched Amount = \$0.00

Pending Match Amount = \$0.00

Process – Working Zero Check Records

- BIA Agency Trust Staff is responsible for researching the check record within 48 hours of receipt
- BIA Agency staff opens the check record image to determine the type of documents that have been sent to Lockbox:
Examples: Invoice, payment coupon, check copy, cancelled check, letter, etc
- BIA Agency staff then determines if the submitted documents are related to a contract.
- If not related to a contract then BIA Agency staff inserts the comment “OST – Please Mark Processed” into the check record comments.
- If submitted documents are related to a contract, BIA Agency staff must determine contract status.
 1. Payment past due = send another invoice
 2. Direct Pay Invoice Not Signed = Request Proof of Payment (signed invoice, cancelled check, etc)
 3. Letter or other indication that payment was made Direct = Request Proof of Payment
 4. Payment shows Paid = Check Comment: “OST – Please Mark Processed”

5. If dollar amount shows in the Direct Pay column, submit request to Lockbox Liaison for TAAMS Help Desk to Mark Processed. Add comment "CGI – Please Mark Processed"*
6. Other – contact Regional Lockbox Liaison for assistance & instruction

Zero Check Records which are accepted as Proof of Payment may also require that the Invoice Record be marked "Paid". This will be discovered by determining the billing status of the current payment term.

The functionality of manually marking check records as processed, does not mark the TAAMS invoice record as paid; it only clears the check record from the outstanding checks query.

* will be in effect until V2.7 release, then OST will be able to Mark Processed

Appendix A

Note: At time of publication, this appendix was in draft. Please refer to VOL 1 of OST's DOP, Section II – receipting – Process II

PROCESS II Process Payments Using a BSD Pay File

The BSD Payments Program utilizes an Excel spreadsheet to post TFAS accounts when a payment received cannot be matched to a TAAMS invoice and automatically distributed; e.g. land sale proceeds. **This method of providing posting instructions is appropriate when the funds will be distributed to five or more TFAS accounts.**

Step 1 Receive a BSD Pay file from BIA.

OST Field Operations staff will:

No.	Instructions
1.	Receive TAAMS Check Worksheet(s) and electronic and hardcopy versions of an Excel spreadsheet from BIA staff. More than one Check Worksheet can be included on a single spreadsheet as long as the worksheets have the same receipt code. (Illustrations #1 and #2)
2.	Save the electronic spreadsheet to the appropriate folder. See Appendix D for instructions on mapping to and accessing the folder.
3.	Prepare a fax cover sheet that indicates the file name that will be used to post the transactions.
4.	Fax the following to DTFA Control Desk: a) Fax cover sheet. b) Check Worksheet(s). c) Copy of signed Excel spreadsheet. d) Supporting documents, if any.

Step 2 Review the BSD Pay file for accuracy and completeness.

DTFA/BIC/Accounting Technician will:

No.	Instructions
1.	Pick up the batch from the DTFA Control Desk. Ensure the documentation includes the following: a) Fax cover sheet. b) Check Worksheet(s). c) Copy of signed Excel spreadsheet. d) Supporting documents.
2.	Access the TAAMS Check Query screen for each check record. a) Double click on Invoicing/Funds/Payments in the TAAMS main menu. (Illustration #3) b) Double click on Query (Invoices/Checks). (Illustration #4) c) Single click on Checks. (Illustration #5) i. Office – All null fields. ii. Check Status – All null fields. iii. Enter Check Record No. iv. Click “Search”. The Check Query Results will appear. d) Verify that the check has an unallocated amount. (Illustration #6) e) Print the TAAMS Check Query Results screen and include with the batch.
3.	Retrieve the BSD Pay file from the appropriate folder.
4.	Review the completed TAAMS Check Worksheet(s) for the following: (Illustration #1) a) Account numbers, names, and amounts are legible and complete. b) Total amounts in the Description section and the amounts per the Check Worksheets agree. c) Receipt codes are identified. d) Grand totals between receipt documents and payments agree. e) Check amounts are fully distributed on the worksheets. f) Ensure the Check Worksheets have been signed and dated by the BIA approver. g) Verify the transaction total in the batch (by name and amount) matches the TAAMS check displayed.
5.	Review the Excel spreadsheet for the following: a) Account numbers and names. b) Amounts. c) CT numbers and dates. d) All explanation fields including check record number.

	e) Receipt codes. f) Format. (Illustration #2) • Explanation Line columns. Fill in with CT number, date, and check record number. There can be up to four additional explanation fields, but there must be at least one. Explanations are limited to 50 characters. • The last data row must be followed by a blank row. The blank row tells the program that the previous row was the last data set that needs to be posted. • The spreadsheet cannot have blank lines within the data set. For example, there cannot be 10 rows of data, followed by a blank row, followed by a new data set. • The only cell that can contain a formula is the “total” at the bottom of the sheet. • The spreadsheet has been signed and dated by BIA.
6.	If the Check Worksheet(s) or Excel spreadsheet is inaccurate or missing required information, contact OST Field Operations staff immediately to provide changes by their close of business. See “Resolve an error in the batch if required” instructions that follow.

Resolve an error if required.

DTFA/BIC/Accounting Technician will:

No.	Instructions
1.	E-mail OST Field Operations at the appropriate field location that an error has been identified.

OST Field Operations staff will:

No.	Instructions
1.	Request BIA to resolve the error and provide revised documents.
2.	Notify DTFA/BIC when the error has been corrected.
3.	Save a revised BSD Pay file to the appropriate folder.
4.	Re-submit any revised documentation to the DTFA Control Desk.

DTFA/BIC will:

No.	Instructions
1.	Retrieve corrected BSD Pay file from the folder and documentation from the DTFA Control Desk.

2. Begin at **Step 2 Instruction 4** again until error is resolved.

Step 3

Run a BSD Payments Program pre-edit and post the payment.

DTFA/BIC/Accounting Technician will:

No.	Instructions
1.	Access the BSD Payments Program and import the Excel spreadsheet. a) Note the total records and total amount. b) The program will compare the imported file against TFAS data and create the following documents: i. Edit_Results.doc that includes closed TFAS accounts and accounts not in TFAS ii. Edit_NameComparison.doc that compares TFAS names to input names. (Illustration #7) These files are stored on the Income Collection shared drive.
2.	If a closed or missing TFAS account is noted, return to Step 2 Instruction 4 to resolve the problem.
3.	If a significant discrepancy is noted between a TFAS and input name, return to Step 2 Instruction 4 to resolve the problem. Note: A significant discrepancy is defined as an account holder name difference that the reviewer believes may cause an erroneous distribution. For example, Mary Smith compared to Mary Ann Smith may be deemed insignificant; while Mary Smith compared to Alice Smith may be deemed significant.
4.	Append the input file to the work file and transfer to the OST Network.
5.	Print the Network Batch Summary and verify the batch ID is listed.
6.	Sign and date the blotter.
7.	Deliver the batch to the BIC Accountant for TAAMS update.
